A FAVORED LAND.

General Rusk, Secretary of agriculture, speaking to day of the agricultural resources of the southern states near here said: "I cannot understand how it is that farming in Virginia is not more profitable and that farming land is not more valuable. The land is good, the markets are near, the climate is excellent for the crops; the land ought to be worth \$100 in places where it is worth only ten dollars. I don't understand it, and I am going to try to find out why it is." Secretary Rusk will probably begin his inquiries by accepting some of the invitations to the adjacent Virginia fairs. If he looks carefully enough in the subject he will find one of the great difficulties is the labor problem. The white men don't care to work as they do in northern communities, and the colored men have not improved in thrift as they ought to have done since the war, but are living in a half-moon sort of way. If Uncle Jerry has an idea of endeavoring to improve the value of farm lands in the south he will be welcomed even by the Bourbon democracy, unless he has kind words to say for the protection system. -*Later Occur.*

Governor Rusk is right about the southern states. There is hardly a more favored section of the country than the south. It has almost everything that a farmer can desire. Especially is this the case with Virginia. There is not a territory in all the United States whose agricultural resources excel those of Virginia. The climate is not only healthful, but it is more temperate and equable than in the northern states or the territories, the soil is excellent and the best of markets are near at hand.

There are chances for an industrious farmer to make two dollars in Virginia to one dollar in the territories. There are no blizzards in the Old Dominion, no sudden changes in the weather that make crop raising a matter of considerable uncertainty. If the northern people who want to change locations, or if young men who want to make farms for themselves, will try such a state as Virginia, they will make a failure. But there is much prejudice in the north even against Virginia. It does not come from the climate or the soil or want of markets, but it comes of the political methods that rule the south. If Governor Rusk wants an explanation why land in Virginia is worth only \$10 an acre when it should be worth \$100, he will find it in the politics of the south. If the ballot was just as free in the south as it is in Wisconsin, much of the prejudice against the southern states would disappear. Virginia is looking up in that direction, and when the state is thoroughly redeemed, when protection can be precluded with just as much freedom in that state as in Pennsylvania, then land will rise in value, and northern men will develop it.

THE EDITORIAL OUTING.

Your correspondent returns once more to incidents of the recent Press excursion to emphasize the points that are likely to hold interest.

A traveler finds at La Crosse much of Janesville's conservatism, but modified by different interests that have called out departures in street improvements, parks, and municipal government. The lumber cut, brewing and flouring here important interests. The church edifices are ordinary; the Catholic homes of varied kinds present large, well kept edifices, the public school buildings are respectable, modern, and the school system is strong and useful under management of wise men. Abundant artesian water is expected soon to supplant the river water at the pumping works. A compound reciprocating pump distributes the water through several miles of pipe—having a relay similar pump for emergencies. Stabs at \$1.25 a cord furnish cheap fuel for everybody.

Eau Claire presents points like those of La Crosse, but its population is less stable, its streets less cared for, its fire department is even more efficient for obvious reasons, and its citizens are likewise, of the salt of the earth. The love of David and Jonathan could not add to the regard that these two cities paid the press party. Eau Claire's industry is more pronounced towards lumber; its residences do not present as pleasant exterior, and its linen factory, its paper mill and its manufactory of electric machinery constitute superior object lessons to visitors, and are doubtless important commercial interests. Eau Claire's church edifices are ordinary but numerous; its school houses are average, and its three ancient school districts are just consolidated under one control. Its potable water is pumped by a rotary at the Chippewa dam; is filtered, is palatable, and traverses miles of pipe. The hospitality of its people is emblematic of wealth, refinement and amplitude that impress the stranger beyond averages.

Superior inherits the clothing of a past generation that we fear appreciated little of the opportunities presented for a great town, easily constructed and easily needed, though the revival of building and street improvement credit the city with a successful effort at transfusion of blood, so much so that old Superior, it by itself, would show a prosperous condition. Its land company is entitled to approval for clearing away the cloud that has hung over one of the best appointed of places for a city, and has already rebuilt the town and infused life into business.

West Superior, situated abreast of the former, is of startling proportions, based quite fully on prospective needs, but its spirit is contagious and buoyant. Its

soil is red clay and needs pavement; but its commercial buildings are numerous, attractive and fairly filled, and some of them are elegant and spacious. The final character, however, of West Superior, cannot yet be told, though its present tendency is towards manufactures, storage and railway terminal. Its people are hospitable, aggressive in trade and expectant. They can build a good city quicker than Chicago did.

Duluth will surprise the visitor without reference to his previous experiences. "Every home of its ten thousand householders has an unobstructed view of the Bay,"—tells volumes of the sanitary quality of its air, for the soul is fixed through the eye, the house is scrubbed by direct sun and no decaying vegetation, and the family is happy even in sedentary occupations. A stranger is also impressed by the extensive works men have built on the lake margin and in the bay; great docks carrying millions of tons of coal, great warehouses plecthorio with world's products, great mills ten stories high ready to convert raw materials, built on piles in the water and having the stability of the steep rock adjacent that bears the residences. We intentionally avoid statistics, but the curious will be converted to belief in Duluth by reading of the mileage of railway tracks, streets, water mains, the tons of freight, number of buildings, and the present and prospective census that give Duluth a world wide reputation as the unique city where nature is conquered by men in her fastness.

St. Paul coming last to our gaze impressed the association as the metropolis;—and no words are the adequate to carry to the mind the vast performances of its enterprising citizens. A single commercial building covering one fourth of a block, built of brick or ponderous stone and iron, rising ten stories is the extreme as against the elegant residence on Dayton Bluff or St. Anthony Hill, flanked by boulevard and private park, and its 100,000 people looking out of a bond in the Mississippi River presents a forty-mile panorama of the Father of Waters, next to a bird's eye view in distinctness, and little short of a paradise in beauty and diversity. The growth of this city and of Minneapolis just in sight, is a wonder. The combined population is little less than 400,000, and all branches of business and varieties of occupation are represented, that Chicago affords.

The efficient dispatch and safety of the special train service afforded by the O. & N. W. Ry. line, and the St. Paul & Duluth railway is beyond praise, and the Gazette correspondent tenders to the Press Association and its officers his gratitude for courtesies and indulgences afforded.

How Reigate and Simmons Struck at Rich.

Was the remark that Dave Simmons made to a Saturday Evening Call reporter. He is a hostler, also foreman in the round-house of the Toledo, Peoria and Western Railroad Company. "I have invested in the Louisiana State Lottery since 1876. In 1877 I drew a prize of \$20. In 1881 I drew \$10; last March \$5, and the last drawing held one-twentieth of prize \$40,000, and have received the amount of \$15,000. I intend Reigate to go in with me (we each hold one-twentieth part of ticket No. 50,416) and expect to continue."—*Peoria (Ill.) Saturday Evening Call, June 1.*

MAY BUY A NAVAL STATION.

Ship Builders Form a Syndicate to Purchase a British Yard at Esquimaux. SAN FRANCISCO, Cal., July 31.—Theodore Cramp, a member of the Philadelphia ship building firm, has left San Francisco for Tacoma, where he will take a steamer for Alaska. On his return trip he will visit the British naval station at Esquimaux, at Vancouver Island. It is reported that Cramp is forming a company of American capitalists for the purpose of purchasing this yard from the British government. It is said that a syndicate has already been formed in the East, with a subscribed capital of \$4,000,000, and that negotiations are pending for the purchase of the yard and its equipment. The price is said to be about \$1,500,000. The syndicate is said to have a number of prominent ship building firms, including Cramp & Sons, Philadelphia; Harlan & Sons, New York; and Pusey & Jones, Wilmington, and the Union Iron works of this city, as its principal supporters. It is understood that the British government has discovered that the Esquimaux yards are inadequate for their original purpose.

THOSE UNHAPPY PERSONS who suffer from nervousness and dyspepsia should use Carter's Little Nerve Pills, which are made expressly for sleepless, nervous, dyspeptic suffer. Price 25 cents.

HARVEST EXCURSIONS.

The Chicago, Milwaukee & St. Paul railway company have made arrangements for several harvest excursions through the far west. The fare on these excursions will be one fare for the round trip. Tickets will be sold on August 6th and 20th, September 10th and 24th and October 8th, good for thirty days from date of sale, stop over privileges to be granted at any point west of the Mississippi river. These excursions will reach points in western Minnesota, Dakota, Iowa, Montana, Nebraska, Colorado, Arkansas, Texas, Indian Territory, New Mexico, Arizona and Idaho. This affords our people an excellent opportunity to visit these states and territories at a small expense.

Ayer's Cathartic Pills are recommended by the best physicians, because they are free from calomel and other injurious drugs, being composed of purely vegetable ingredients. While thorough in their action, they stimulate and strengthen the bowels and secrete organs.

HARVEST EXCURSIONS.

To points in Kansas, Indian Territory, Oklahoma, Colorado, New Mexico and Texas via the Santa Fe route—Atchison, Topeka and Santa Fe R. R., at one fare for the round trip. Excursions leave Chicago and all points in Wisconsin, August 6 and 20, September 10 and 24, October 8. For full information regarding rates, tickets and accommodations, address, J. M. CONNELL, Frt. and Pass. Agt., Milwaukee, Wis. Beecham's Pills cure bilious and nervous ill.

BURKE'S APPEAL DENIED.

THE WINNEPEG SUSPECT'S EX-TRADITION CASE SETTLED.

The Full Court Confirms the Finding of Justice. Baltimore—An Alabama Outlaw—Crimes of '89.

WINNEPEG, Manitoba, July 31.—The court room was crowded Tuesday when the three judges entered to give a decision upon the appeal in the case of Martin Burke, the Cronin suspect. The Chief Justice was the first to render judgment. He went over the facts of the proceedings very hurriedly and then proceeded to sweep away one by one the objections raised by Burke's lawyers when the application for a writ of habeas corpus was made. Constable McKinnon's evidence was not objectionable as the question asked was only whether or not it was necessary to secure the information for the police office register. The chief justice had examined the cases quoted by Burke and found that they fully sustained his opinion that a man who is an accessory to a crime may be indicted as a principal. As to the agreement that the court should be governed only by the provisions of the treaty, the chief justice held that the court could only be guided by the crime intended to be committed and not by the definition of the crime in the treaty. He did not consider it his duty to weigh the evidence. All that was necessary to be shown was that there was sufficient evidence, according to the Dominion statute, to commit for trial. As the defense had set up that there was no evidence to convict he had been obliged to review it. He had done so and he could not help arriving at the conclusion that, taken as a whole, the evidence was enough to excite strong suspicion against the prisoner. The chief justice then reviewed the evidence at considerable length. In his opinion the appeal should be dismissed and the judgment of Justice Bain extraditing Burke sustained.

Judge Dubuis delivered a short judgment concurring in the principal points and concluding that the appeal should be dismissed. Judge Killam, in a judgment of considerable length, agreed with his brother judges in dismissing the appeal and holding Burke for extradition. The three judges spoke of the desirability of carrying out the policy of the freest exchange of criminals between the two countries, but pointed out that it was a matter for the executive department to deal with.

The Cronin Prisoners.

CHICAGO, July 31.—The five men in jail indicted for the murder of Dr. Cronin were brought before Judge Horton again Tuesday but no progress was made toward deciding when they will be tried. State's Attorney Longenecker opposed O'Sullivan's application for a change of venue, holding that it was not made in statutory form, and the motion to quash the indictment, made by the other defendants, were submitted by their attorneys without argument. Judge Horton then took the whole matter under advisement indefinitely, but will probably decide all five motions this week, before the close of the July term.

DEFIES THE ENTIRE STATE.

An Alabama Outlaw Sends Word That He Will Not Be Captured Alive.

BIRMINGHAM, Ala., July 31.—Rube Burrows, the daring murderer and train robber, for whose capture there are rewards aggregating \$5,000, is just now defying the whole civil and military power of the State of Alabama, as well as scores of desperadoes employed by express and railroad companies. With four other desperadoes he is in hiding in the wilds of Lamar county, and has sent word to the sheriff that he will not be taken alive. The sheriff of Lamar county, telegraphed the Governor, asking for a company of State troops to aid in the capture of Burrows. Three years ago the latter and his brother robbed a train in Arkansas and secured \$13,000 from the express car. They killed a detective who followed them to their home in Lamar county. A few months afterward they were captured in Montgomery. The latter escaped by making a dash for liberty from the door of the jail and shooting down a man who attempted to stop him. Jim was taken back to Arkansas and died there. Rube disappeared and was not heard of again until he robbed a train on the Illinois Central road, in Mississippi, last January. He again disappeared, until two weeks ago, when he killed Postmaster Graves at Guinn, Ala., because Graves recognized him. The Southern Express company and the Illinois Central railroad company started a score of detectives to Lamar county as soon as they learned Burrows was there.

PAYING GRUDGES WITH DYNAMITE.

Three Men Torn to Atoms and Two Teams Killed Near Anderson, Ind. ANDERSON, Ind., July 31.—It is reported that a stick of dynamite was fed into a thrashing-machine in the western part of the county Tuesday, at noon, the machine blown to pieces, three men torn to atoms, and two teams killed. Later advices indicate that the old "peanut gang" feud had recently been renewed, and that some of the parties had concealed dynamite in a stack of wheat. It had been quietly announced that upon the occasion there would be a contest between rival machines, and a large crowd had assembled. Fortunately, the timely action of the dynamite was fed into the machine, a greater portion of the people were in the shade of a large tree some distance off. The feeder, a band cutter on one side, and the owner of the machine are reported dead. A team of horses on each side of the machine were killed and the wagons shattered.

Overrun by Desperadoes.

RICHMOND, Va., July 31.—Gov. Lee has received a letter from Commonwealth's Attorney Moore, Patrick county, in which the latter appeals to the Governor to aid him in punishing desperadoes who are guilty of lawless acts along the North Carolina and Virginia border. The latest outrages include the unprovoked killing of an officer, J. W. Griggs. The outrages belong to a family of moonshiners living along the Virginia and North Carolina border, and have defied the officers of both States. Gov. Lee will take prompt action in the matter.

Disappeared with \$15,000.

KANSAS CITY, Mo., July 31.—Andrew C. Drumm, who had full charge of the cattle commission business of A. Drumm & Co., has disappeared and \$15,000 with him. The missing man announced Saturday that he was going away for a time, but gave no intimation where. Since then he has not been seen or heard from.

TWO INDIANS SHOT BY A NEGRO.

Fatal Affray Among the Members of Forepaugh's Wild West Show. ST. LOUIS, Ill., July 31.—T. H. Tolliver, a negro of Nashville, Tenn., shot two Indians connected with the Adam Forepaugh circus Tuesday. The wounds of one at least will prove fatal. Tolliver was the "home thief" of the circus, being lassoed by the cowboys and finally hanged to a tree at each performance. All the Indians were on a big spree Monday night and on the way home abused the negro in various ways, culminating in his shooting

two of them Tuesday. "His story is that he acted in self defense and it is substantiated by eye-witnesses. He is in jail, while the two injured Indians are lying at the hospital. Their names are Red Ear and Looks Bad.

SHOT THE BURGLAR DEAD.

An Iowa Postmaster Interrupts Midnight Proceedings at His Window. BOONE, Iowa, July 31.—About 12 o'clock at night John A. Peterson, deputy postmaster at Mineral Ridge, a small town eight miles south of here, was awakened by some one trying to get into the store and postoffice. He saw a man reaching in a window that had been broken. Peterson fired and the burglar dropped dead on the floor, shot through the head. An accomplice who was with him escaped. In the morning it was discovered that the dead man was Frank Adamson, aged about 20, son of a farmer living near Mineral Ridge. He had been hanging around the postoffice the day before. The coroner's jury said the shooting was justified.

A HEAVY FAILURE.

Batcheller & Co., Boots and Shoes, of Boston, Assign for \$1,250,000. BOSTON, Mass., July 31.—E. and A. H. Batcheller & Co., among the largest boot and shoe firms in Boston, and doing business at 106 Summer street, have assigned. At the office of the firm nothing definite as to the extent of the liabilities, etc., can be learned at present. A statement is to be prepared and given out this afternoon. Later in the day Mr. Batcheller of the firm stated that the liabilities would reach \$1,250,000, with nominal assets. A statement of the same figure. An expert accountant is now going over the books, and a report will be made to the creditors as soon as possible. The assignees are Thomas E. Proctor of Boston and R. Batcheller of North Brookfield. The larger amount of the indebtedness is said to be on paper and held by parties who are at present unknown to the firm. Four-fifths of the indebtedness is to banks and individuals. The leather trade will not suffer, as the firm paid cash for most of its leather. The company is one of long standing, and the failure creates great surprise.

This was one of the ten firms in Worcester county that had a long contest with the Knights of Labor in 1887, lasting some five months and ending with the firm's failure. The assignees are Thomas E. Proctor of Boston and R. Batcheller of North Brookfield. The larger amount of the indebtedness is said to be on paper and held by parties who are at present unknown to the firm. Four-fifths of the indebtedness is to banks and individuals. The leather trade will not suffer, as the firm paid cash for most of its leather. The company is one of long standing, and the failure creates great surprise.

DAKOTA SCHOOL LANDS.

Not to Be Sold in Tracts of Less Than 100 Acres—Other Conventions. BISMARCK, D. T., July 31.—Most of the time of the convention was occupied in considering the school land question in committee of the whole. It was finally settled by providing that school lands shall not be sold in tracts of less than 100 acres. The purchaser pays one-fifth down and the remaining four-fifths in five, ten, fifteen, and twenty years.

Bull, the Minneapolis single-tax advocate, arrived to-day and addressed the convention on that subject, advocating the constitutional provision for the system of taxation.

A large number of Jamestown citizens are for the purpose of having the capital located in that city if possible.

SOUX FALLS, D. T., July 31.—No business will be transacted by the convention till the division commission returns from Bismarck.

OLNEY, W. T., July 31.—The convention spent all day on the military bill and passed the sections subjecting all able-bodied citizens between the ages of 18 and 45 to military duty and establishing a soldiers' home.

A number of protests have been received from various boards of trade and city councils against the sections requiring foreign corporations to have officers here and establishing a railroad commission. Both sections will probably be defeated.

HELENA, M. T., July 31.—The convention had a great fight over the suffrage question. A woman-suffrage amendment was defeated by a tie vote, and the article as reported from committee was adopted.

Full Weight Pure.

It's superior excellence proven in millions of homes for more than a quarter of a century. It is used by the United States Government, endorsed by the heads of the Great Universities, the Strongest, Purest, and most Healthful. Dr. Price's Cream Baking Powder does not contain Ammonia, Lime, or Alum. Sold only in cans. PRICE'S BAKING POWDER CO. NEW YORK. CHICAGO. ST. LOUIS.

THE OLD RELIABLE INSURANCE AGENCY.

At this agency is represented many of the Sound, Solid Old Companies of this country and England, among them are
The Sun of London, England.
The oldest stock Insurance company in the world, and one of the largest.
The Old Hartford, of Hartford, Ct.
Organized in 1794. I have in my office a fac simile of the first policy ever issued by this sterling old company, dated Hartford, Feb. 8th, 1794, which is well worth examination. With its millions of assets, great experience, and the fair and honorable manner which this company has at all times adjusted its losses, accounts for its great popularity and enormous business. All my companies have had great experience, have immense assets, and sound and solid. The most of them have been through all the great fires for years past, including those of Chicago and Boston, and have always paid one hundred cents on the dollar and always will.

THE BEST IS THE CHEAPEST.

I also have a special form policy for dwellings and contents, the shortest and best ever issued. All policies written at lowest possible rates. Please call at my office opposite Rock County National bank.

MARK RIPLEY, Agent.

Address, Dr. VANCE, Madison, Wis.
Dr. Vance will be at the Grand on August 21.

The clearness of plate-glass windows is impaired by washing
them with soap containing resin, which always leaves a thin,
semi-transparent coating over the surface. Ivory Soap contains
no resin, and if used with tepid water, a sponge to apply the soap
and water with, and a chamois to rub the window-pane dry, your
windows will prove the truth of the saying: "Clear glass is to a
house what beautiful eyes are to a woman."

A WORD OF WARNING.

There are many white soaps, each represented to be "just as good as the Ivory;"
they ARE NOT, but like all counterfeits, lack the peculiar and remarkable qualities
of the genuine. Ask for "Ivory" Soap and insist upon getting it.

CYCLONE IN YORK STATE.

A VILLAGE OF ULSTER COUNTY
BADLY DAMAGED.

In Parts of New Jersey the Storm Causes
a Great Flood—The Day's Casu-
lty Record.

POUGHKEEPSIE, N. Y., July 31.—A
cyclone struck Ellis Corners, Ulster
county, four miles west of Highland,
destroying a large amount of property
and injuring a number of persons. The
cyclone, which was accompanied by a
roaring sound that terrified the people,
seemed to come from a funnel-shaped
cloud. Matthew Harcourt's vineyard was
completely ruined and every tree in his
apple orchard was rooted up, the trees
being carried away as though they were
straws. The houses and barn of John
Nelson were struck and completely demol-
ished, broken timbers being carried hun-
dreds of feet. Mr. Nelson and his wife
were blown out of the house along with
the flying timbers and were seriously in-
jured, but not fatally. Two barns be-
longing to Patrick McGowan were totally
destroyed. Mr. McGowan, who is 80
years old, was so badly injured that no
hope of his recovery are entertained.

There being no more buildings in the
path of the tornado no more serious dam-
age was done. Red quilts and dresses
belonging to Mrs. Nelson were found in
four miles from the scene of the storm.
Huge timbers were also found stuck
up in the mountains some distance
away.

Newark Deluged.

NEWARK, N. J., July 31.—This place
has just experienced the most disastrous
storm that ever visited this city. In this
city cellar basements and several houses
were found to be suspended in the air
in the lower section. A wash-out occurred
on the Morris & Essex railroad at South
Orange and trains were delayed for many
hours. In the suburbs several buildings,
including the postoffice, were carried away,
and 250 barrels of flour were washed out
of one storehouse. In Orange Valley the
water is up to the second story windows
and great damage has been done to the
numerous hat factories there. People were
compelled to paddle around on planks and
to swim in order to get to places of safety
on high ground. Blooded and mortu-
ary also report great damage to property.
No lives are as yet known to have
been lost.

The greatest alarm prevails around
Milburn. Above this, the Green River
reservoir dam, which is not regarded as
safe. Should it burst it would overflow
Milburn and other small towns along the
Rhiney river, of which it is the source,
and the damage would reach as far as
Hawthorne. The dam is still reported all
right, but the inhabitants of towns are
preparing to move to high ground. Nearly
every road in the country is impassable,
and all the bridges have been washed
away.

Plainfield Flooded.

PLAINFIELD, N. J., July 31.—This place
is suffering from the greatest flood ever
known here. The dam at Stony Brook,
above the Green Valley mills, has given
way, carrying with it Coddington's ice
houses and many barns and serious in-
jury to the mill. A dam on Green
Brook, in the heart of the town, has also
given away and caused much damage.
Many wooden buildings were carried away.
The immense dam at Westfield, back of
Scott Plains, has collapsed and an addi-
tional body of water was thereby thrown
into the valley below. Green Brook could
not contain it and the water rushed across
to Cedar brook, and thence through the
finest residence portion of Plainfield. The
damage here is very great, two or three
square miles of thickly settled territory
being submerged. There were many gal-
lant rescues of life.

Storms Elsewhere.

CONCORD, N. H., July 31.—During a
rainstorm at high wind the arsenal and
five houses were unroofed and several de-
stroyed. An old store 195 years old was
torn up by the roots and blown across Main
street.

St. Louis, Mo., July 31.—A very violent
storm passed over New Madrid, Mo., and
vicinity, doing great damage to the cotton
and corn crops. Two little steamboats,
the Arkansas City and Carl Schurz, ar-
riving at New Madrid, were totally de-
stroyed; loss \$14,000. Warehouses at
Tiptonville and Luzzelle Landing were
blown down.

Many People Killed.

The Island of Kiver Sion, in China,
visited by a Disastrous Earthquake.
YOKOHAMA, July 31.—A dispatch re-
ceived to-day from Nagsasaki states that
a dreadful earthquake has occurred in the
western portion of the island of Kiver
Sion. The town of Kumamoto was de-
stroyed. A great number of people
perished. A vast amount of property was
also destroyed.

Shot His Father By Mistake.

HERMANSVILLE, Miss., July 31.—A most
horrible accident occurred near this place
last night. J. W. Griffin, an old farmer
and a citizen of Clark county, was shot
and instantly killed under the follow-
ing circumstances: Ed Griffin, son of the
deceased, a youth of 18 years, was an-
nounced by a thief who showed up at
attempts to break into the house. Upon
going to bed young Griffin took his double-
barreled shotgun with him. During the
night a wind and rain storm came up and
blew his door open. His father, thinking
him asleep, got up to close the door, and
was fired upon by the son and instantly
killed.

Fatal Saw Mill Explosion.

FARMVILLE, Ill., July 31.—A saw mill
boiler exploded at Golden Gate, about
seven miles east of this city, Tuesday,
instantly killing Frank Peters, son of the
proprietor, and injuring Joe Wallace and
William Fox so badly that they can not
possibly recover. The cause of the ex-
plosion was lack of water in the boiler, the
engine being the hands of persons who
knew little about running it.

Big Blaze in Pocket-Books.

GREENWICH, Mass., July 31.—The en-
tire plant, and the buildings, machinery
and stock of the Arms Pocket-Book man-
ufacturing company, at South Deerfield,
was burned this morning. The fire started
in the engine room. Sixty-five hands are
thrown out of employment. The loss is
\$20,000; the insurance unknown.

Burning Forests in Colorado.

GLENNWOOD SPRINGS, Colo., July 31.—
The fire started over a week ago by a
sportsman in No-Name canon, whereby
J. Brown, his family, and a party of
ladies narrowly escaped death, and were
saved by wading through a creek for nearly
two miles on their hands and knees, and by
which Mr. Brown lost two valuable horses,
has now spread and covers an area of over
ten miles square. The entire air in the
western slope is filled with smoke from
the burning mountains. Reports from
Red Cliff, Leadville, Aspen, and New
Castle report the sun completely obscured.
The sight from Glenwood in the evening
is magnificent, as the entire face of No-
Name and Grizzly mountains is one mass
of fire.

Melted Ice in Northern Wisconsin.

STURGEON BAY, Wis., July 31.—Fire
was discovered on the dock of A. S. Piper
& Co., Little Sturgeon, twelve miles
west of here, at an early hour this morn-
ing. When discovered the flames had
gained such headway that it was impos-
sible to save anything on or near the dock.
As far as learned the burning houses, 100
and 30 feet high, which were filled with
2,000 posts, 500 cords of wood, to-
gether with the dock, which is said to
have been burned to the water's edge, have
been destroyed. The burning houses were
filled with ice, which will prove a total
loss will not be less than \$10,000, and
may reach a much larger figure.

A Whaling Vessel Lost.

SAN FRANCISCO, Cal., July 31.—The
steamer Dana, just arrived from the North
Pacific whaling ground, reports the wreck
and total loss of the whaling bark Ohio
No. 2, July 1, on Nuvikak island. All the

crew were saved. The vessel was owned
by Aitken & Swift of this city.

ON THE TURF.

Condensed Summaries of the Turf Events
of a Day.

At the Twin City tracks Jon Jon,
Argenta, Henry Black, Brightlight
and Avondale were the winners. The
race for gentlemen riders was won by
Riddleman.

At Chicago Fairgrounds, Ernest Race,
Champane Charley, Chilhowie, Dutch-
man and Fanny were the winners.

At Cleveland the Grand circuit races
opened. The winners were Reference in
2:20, Hat Pointer in 2:15, and Lady
Bullion in 2:15.

At Joliet the Illinois trotting circuit
races opened, the events being won by
Monkey Roller in 2:22, Zeno in 2:31, and
Olgo Cossack in 2:41.

At Saratoga, Maori, Los Angeles (beat-
ing Hamover and Monterey), King Crab,
Daisy F., and Queen Elizabeth were the
winners.

At Monmouth Park the winners were
Fess, Drizzle, Jay F. Dee, Fireball, Nallor
and Niagara.

EIGHT STATES WON'T ATTEND.

Department Commanders Decide Against
the Milwaukee Encampment.

CHICAGO, July 31.—The Grand Army
of the Republic Department Commanders
of the eight States were in session nearly
all day Tuesday at the Grand Pacific de-
lating, stating that they would not ac-
cording to the annual encampment
next month at Milwaukee. The result of
the meeting was a positive and unquali-
fied refusal of the encampment, determi-
nation to discourage general attendance
in view of the refusal of the railways to
make satisfactory rates. The States rep-
resented were Illinois by Department
Commander Martin; Iowa, Charles H.
Davis; Minnesota, A. Barto; Missouri, Col.
Rogers; representing Department Com-
manders of the States of Kansas, Michi-
gan, Nebraska, N. B. Davis.

Gen. Martin presided and a triple de-
cision was reached. First, that the posts
represented in force and accept the man-
ifesto issued in this city on July 2 in which
a general attendance to the encampment
was to be discouraged if the railways did
not recede from their positions; second,
that the manifesto of July 2 was in accord
with the action of the last National en-
campment at Columbus, Ohio; third, that
the representatives present issue a circular
withdrawing the departments represented
from the parade.

Situation at Brazil.

BRASIL, July 31.—The miners' ex-
ecutive committee held its semi-weekly
meeting here Tuesday. The number of
delegates was reported at 3,982,
an increase of eight since Friday, although
sixteen miners have left for Day's Gap,
Ala. A hundred others will leave for
Kentucky county, Kentucky, next week.
The total relief fund was \$28,453 or 4 cent
each. The miners were very much en-
couraged over their recognition by the
general executive board of the Knights of
Labor, which has just issued a circular
in their interest. The strike continues,
though backsliding is looking out among
them.

Eusepey.

This is what you ought to have in fact
you must have it, too fully enjoy life
Thousands are searching for it daily, and
millions are dying for it. Thousands
suffer from dyspepsia and indigestion, and

the bereaved parents are called upon to sever their earthly connection with their little darling. In their sorrow they have the kindest sympathy of many friends. The funeral services were held at four o'clock this afternoon.

—To-morrow is the day for the Trinity parish and Sunday school picnic at Mayflower Park. Captain Griffith has been secured to transfer the passengers to and from the grounds in his safe and reliable steamer which will leave the city at 10 a. m., 2:30 and 7:30 p. m. The eight mile excursion up the river in the evening, will be the crowning feature of the occasion.

—A couple who reside outside of the state, went to the residence of Rev. M. Evans, pastor of the First M. E. church, yesterday for the purpose of being married. The gentleman had been divorced for very trivial reasons and the pastor refused to perform the ceremony. This the second couple Mr. Evans has refused to marry since his residence in Janesville for good reasons.

—Ald. Baker was making a tour of the water works pipes this forenoon in company with Superintendent Howe, blowing out hydrants, when the fire occurred on Pearl street. He chanced to be near the alarm box when a little boy came to him and told him of the fire. Ald. Baker lost no time in "pulling down the hook," and in less than two minutes the fire department was on him at the box.

He remained at the box until the last apparatus passed him, informing them of the location of the fire; just the right thing to do.

—The attention of property owners is called to the advertisement of Mark Ripley, of the old reliable insurance agency in the old postoffice building, East Milwaukee street. Mr. Ripley represents a number of the old solid companies, and is prepared to issue policies at the lowest living rates. He also writes a special policy on dwellings, which is greatly simplified, easily comprehended, and which is said to be the best and most convenient policy issued. Interview Ripley when in want of insurance.

—They are setting up the cigars in Carlo & Wilcox's grocery this morning. A gentleman who is well known in the vicinity, and who appreciates the joke as well as anybody, was sent into a neighbor's store for the "gigs." Not thinking what they might be, he visited seven or eight business houses each of which had lent them to a neighbor, and at Stearns & Baker's procured a heavy cart with which to bring the "steps" down from J. B. McLean's. In the vicinity of St. Ken's some one unfolded the mystery, and the cart was returned. Nobody's feelings were hurt, but a good many of the boys were indulging in a generous smoke this morning.

—Among those present at the funeral of Edward S. Hayward from abroad, were Wm. Smith, assistant superintendent motor power, John Cryler, superintendent Chicago avenue shops, Chicago; Henry Page, master mechanic Madison Division C. & N. W. R. y. Baraboo; Barney Malloy, Milwaukee; James Thompson, foreman of the shops at Fort Howard; Mr. Wm. L. Smith, of Fort Howard; Mr. Wm. Smith, of Chicago, was also accompanied by his wife. The superintendents from Fort Howard and Chicago, left the city for their homes on special at 3:45 o'clock this afternoon.

—Directors of the Indian Ford Water Power Company accompanied by many of their friends, went up the river in the Mayflower this morning to inspect the dam prospect and so forth. A delegation of directors came up on the morning train from Rockford and Beloit. Among those from Beloit were L. Holden Parker, C. B. Salmon, Mr. Merrill, and E. J. Adam. Some of those who accompanied them from this city are Pliny Norcross, O. C. Ford and A. P. Burnham. The Mayflower will convey the party as far as Indian Ford, from which place they will go to Kohkonong in small boats or carriages. Returning they will reach the city sometime this evening.

—The tobacco market in New York the past week has been very quiet. From Lancaster, Pa., news has been received that tobacco in that vicinity has been infected with "black rot" to a considerable extent. The tobacco crop in Rock county is doing well. Some have already commenced topping, and within two weeks, if the present cool weather continues, a few early crops will be harvested. The recent hailstorm did not damage the crop to any considerable extent. It seemed to go in streaks. At Union, Dan county, 1st London and Cambridge, Jefferson county, and at Emerald Grove, Rock county, the storm was severe, and more or less tobacco stripped. But this damage is confined to a very narrow territory. It is stated that not more than 200 cases of Rock county tobacco are in the hands of the growers. Two New York buyers have been riding through the country this week, but have not been able to make any purchases.

—The funeral services of Edward S. Hayward were conducted at the family home, 166 Linn street, at 2:30 o'clock this afternoon by Rev. Dr. M. G. Hodge, of the Baptist church. There was a large number of relatives and friends present and especially a large representation of railway officials and employees. W. H. Sargent Post No. 20, Grand Army of the Republic attended in a body, as did also the Woman's Relief Corps. The singers were: Messrs. Clarence L. Clark, C. N. Vankirk, Mrs. J. W. St. John and Mrs. B. Conrad, of the Baptist choir. The music rendered was very beautiful and appropriate to the occasion. Dr. Hodge's remarks were listened to with great interest and were full of tender sympathy for the bereaved family and friends. The floral decorations at the house were profuse, consisting of pillows of flowers, "gates ajar" and innumerable other appropriate designs. At the conclusion of the services the remains were conveyed to Oak Hill cemetery for interment. The Grand Army took charge of the burial service which was conducted according to the beautiful ritual of that body. The pall bearers were: Messrs. J. F. Baker, John Heath, S. C. Cobb, W. W. Willis, C. A. Palmer, E. G. Harlow.

—"I was troubled with catarrh for over two years. I tried various remedies, and was treated by a number of physicians, but received no benefit until I began to take Ayer's Sarsaparilla. A few bottles of this medicine cured me."

—Jesse M. Boggs, Homan's Mills, N. O.

—"I have been a very fever sufferer for three years. I have often heard Ely's cream spoken of in the highest terms; did not take much stock in it because of the many quick medicines. A friend persuaded me to try the Balm, and I did so with wonderful success."

—I can recommend Ely's Cream Balm to all hay fever sufferers, it is, in my opinion, a sure cure. I was afflicted for 25 years and never found permanent relief.

—W. H. Haskins, Marshfield, Vt.

A PEARL STREET FIRE.

THE RESIDENCE OF GEO. H. DAVEY SLIGHTLY DAMAGED THIS MORNING.

At 9:00 o'clock this morning an alarm of fire was turned in from box 13, located at the corner of Marine and Terrace streets, first ward, calling the fire department to the residence of Mr. George H. Davey, No. 109 Pearl street, two blocks from the alarm box. The department arrived at the fire in their usual quick time, the flames being speedily extinguished with very little damage to building or contents. Chief Blank handled the fire admirably, using very little water from the hydrants, but relied more on the fire extinguishers carried by the fire patrol, and as a result there was no trailing damage, either by fire or water.

The building is insured in the Northwestern National for \$500, the same company having a risk of \$125 on the contents, the company being represented by Silas H. J. Baker, of the first ward, turned in the alarm, and he is loud in his praise of the efficiency and promptness of the fire department and of the convenience of the fire alarm system.

The origin of the fire is somewhat of a mystery, but was probably the result of more or less carelessness about the stove, the fire being mostly confined in a wood box among kindling and in a little attic.

A FEAST OF MUSIC.

GRAND ORGAN RECITAL AT THE CONGREGATIONAL CHURCH LAST EVENING.

One of the most artistic, entertaining and instructive organ recitals ever given in this city was rendered last evening by Mrs. J. W. Blinfield at the Congregational church. It is a new departure in our little city to give a series of organ recitals, and it is something to be proud of to know that we have so excellent an artist as Mrs. Blinfield to give them feasts.

The programme last evening was a very pleasing grouping of works varied as they were brilliant. Mendelssohn, Handel, Gailmair, Baptiste and Clark were the composers from whom selections were made; and excellent selections they were, too. Each number was roundly enjoyed and responded to. The programme as printed in the Gazette last evening was given a finish, grace and interpretation at once intelligent and artistic. On Friday evening next will occur the second organ recital of the series, and standing room ought to be a premium.

MATHEMATICAL.

BARKER-LEON.

Miss Nellie F. London, daughter of Mr. and Mrs. J. W. London, was married last evening to Mr. Edwin H. Barker, of Minneapolis, at the home of the bride's parents, residing on Mineral Point avenue, in this city. Rev. W. F. Brown, of the Presbyterian church, officiating. After congratulations and a wedding feast Mr. and Mrs. Barker left for their future home at Minneapolis. The bride is from one of our old and highly respected families of Vermont origin, and is a refined, amiable lady. The groom is a former townsman, and bears with him the regard of many friends and well wishes for the future.

BISHOP WELLS'S SCHOOL.

THE YOUNG LADIES' SEMINARY WILL OPEN SEPTEMBER 9th.

The Bishop Wells school which is to open in this city on the 9th of September will offer to children, misses and young ladies five different courses. For the little ones there will be the Kindergarten, under the charge of Miss Louis Warren. For the misses, a preparatory course of common English studies. For the young ladies, a higher English and scientific course, and a classical course with Latin, French and German for the leading studies.

Finally there will be an industrial course for those who wish a purely practical education. It will consist of commercial arithmetic, book-keeping, stenography (Pitman and allied systems) type-writing, business composition and proof-reading. Lectures on cookery and general house-keeping will be given in connection with this course.

The religious instruction given in the school will consist of an opening service of ten minutes duration each morning and the Sunday classes for those who choose to enter them.

A MODEST, SENSITIVE WOMAN

often shrinks from consulting a physician about functional derangements, and prefers to suffer in silence. This may be a mistaken feeling, but it is one which is largely prevalent. To all such women we would say that one of the most skillful physicians of the day, who has had a vast experience in curing diseases peculiar to women, has prepared a remedy which is of inestimable aid to them. We refer to Dr. Pierce's Favorite Prescription. This is the only remedy for woman's peculiar weaknesses and ailments, and it is the intention of those who give guarantee from the manufacturers, that it will give satisfaction in every case or money refunded. See guarantee printed on bottle wrapper.

THE WEATHER.

At seven o'clock this morning the thermometer indicated 66 degrees above zero. Clear with north wind.

At one o'clock p. m. the register was 84 degrees above zero. Partly cloudy with north wind. For the corresponding hours one year ago the register was 75 and 99 degrees above zero.

TODAY.

"BURTON AND INDIA PALE ALBS"

are acknowledged by judges to be superior to the Imported English Ales. They have the virtue of being strictly pure—nothing else malt and hops, and of the choicest quality, enters into their composition. Consequently all the nutritive tonic and restorative properties those ingredients are known to possess are found indelibly blended in these brands of ale—Brewery east end Milwaukee street bridge.

For a disordered liver try Becham's Pills.

MAY FEVER.

I have been a very fever sufferer for three years. I have often heard Ely's cream spoken of in the highest terms; did not take much stock in it because of the many quick medicines. A friend
